

# FLEXIBLE ALD MOUNTING SUPPORT

**FLEXIBLE ALD MOUNTING SUPPORT**  
is designed for installation of 1-3 antenna line device units such as TMA, filters etc. By adding expansion for ALD mounting support it is possible to install up to 6 units of antenna line device.

**FLEXIBILITY**  
The flexible ALD mounting support can handle a wide range of all common frame leg designs, round, square, angle etc. Thanks to the unique design. You can choose the position of the included mounting tube. This can be done by turning the tube holder in reverse position or mount the tube

holder on the inside or the outside of the clamp. These options makes the support very flexible and easy to optimize for your type of installation.

**QUALITY**  
All components are made of anodized aluminium and acid proof stainless steel which gives the support excellent corrosion resistance.

**EASY ASSEMBLY**  
The choice of materials and design makes the product very light which makes the handling and installation very easy.
