

#ConquerGravity

V-GRIPP TAPE

TOOL CONNECTOR

CODE : H01010

ANSI/ISEA 121-2018 COMPLIANT

The Swivel Catch is your guarantee against tangles and tension when working with tools at height.

By not relying on a traditional adhesive layer, V-Gripp Tape outperforms all other tapes on the market by creating a fully load rated and certified tool attachment point, when used in combination with a Tool Catch. Extremely durable and easy to apply, V-Gripp Tape is recommended for use on-site and in extreme conditions.

@GRIPPSGLOBAL

KEY FEATURES

Heat resistant to 150°C/302°F

Extremely resilient and long lasting

Self-Vulcanizing, doesn't rely on chemical adhesives

Resistant to water and oil

INSTALLATION INSTRUCTIONS

Cut a length of V-Gripp Tape approximately 30cm (or enough to go around the tool 10 times).

Position the Tool Catch on the tool.

Apply V-Gripp Tape, pulling it tight and without covering the 'Ring' on the Tool Catch.
